Virtual Sessions

We are hosting a fully virtual experience for our speakers and attendees. Our priority is to provide you with a positive, interactive, and substantial experience. Virtual sessions will be recorded and available to participants after the conference.

Measurable Goals & Outcomes

One of the most important goals of Conference presentations is that attendees leave each session with skills or knowledge on a particular topic related to a Conference Strand or to the overall Conference Theme.

Presentation Materials/Handouts

All materials and content presented should not infringe or violate any copyright, trademark, patent or intellectual property rights of any person or entity. Presenters are responsible for sending in their slides/materials to [Mia Righetti](#) by **January, 21, 2021**.

Promotion of Business Interest

Sale of products is prohibited in conference sessions. If you will be sharing examples of proprietary work as part of your presentation, please supplement the examples with additional projects that you (or your organization) did not have a role in producing. Doing so alleviates the perception of self-promotion and participants also enjoy learning about projects you represent.
